Beyond “Don’t Be Evil”: Embedding your research in social contexts

Science, Technology and Society (STS) Graduate Research Seminar

January 11-15, 2021
10:00am-12:00pm and 2:00-3:00pm
Virtual via Zoom

The Program on Science, Technology and Society invites graduate students—particularly scientists, engineers and STS Secondary Fielders—to sign up for an innovative research seminar designed to enable you to better understand and engage with the ways research finds its way into applications and policy, and how social and ethical factors affect aspects of your research.

This Seminar can towards the STS Secondary Field when combined with a research paper.

Instructors
Dr. Sam Weiss Evans
Dr. Jonathan Moch

In Collaboration With
Prof. Sheila Jasanoff
Prof. L. Mahadevan
