

**SDN 2011 FINAL PROGRAM**  
**JUNE 30 – JULY 2, 2011**  
**LAND HALL**  
**HARVARD KENNEDY SCHOOL**

**DAY 1: THURSDAY, JUNE 30**

**8:30 Coffee and Registration**

**9:15 Welcome**

**9:30 Introductions and Announcements**

**10 Session 1: Epistemic Democracies**

**Chair: Stephen Hilgartner (Cornell University)**

Alessandro Blasimme (European School of Molecular Medicine)

*Towards epistemic sovereignty: strategic planning and democratic oversight in the age of post-liberal science*

David Guston (Arizona State University)

*The Pumpkin or the Tiger? Or, Michael Polanyi, Frederick Soddy, and the Anticipatory Governance of Emerging Technoscience*

Alice Vadrot (Interdisciplinary Centre for Comparative Research in the Social Sciences, Vienna)

*Framework for Epistemic Governance of Biodiversity: The discourse on a science policy-interface for biodiversity and ecosystem*

Tolu Odumosu (Harvard Kennedy School)

*Re-thinking the Margins of Knowledge Creation: Reconfigured “Producers” and Productive “Users”*

**12 Lunch**

**1:30 Session 2: Environmental Governance: Models and Institutions**

**Chair: Tim Forsyth (London School of Economics)**

Stefan Bösch (University of Augsburg)

*“Wissensprozessordnung” - Ordering Knowledge and Non-knowledge for Strategies of Precaution*

Martin Mahony (Tyndall Centre for Climate Change Research, University of East Anglia)

*Model Migrations: Mobility and Boundary Crossings in Regional Climate Prediction*

Hirokazu Koi (University of Tokyo)

*Boundary-ordering Devices Beyond Governance: Sustainable Development as a Driver of Global Carbon Emissions Trading*

Silke Beck (Helmholtz Centre for Environmental Research, Leipzig)

*From Truth to Trust - IPCC under Trial*

**3:30 Coffee**

**4 Session 3: Regulatory States**

**Chair: Clark Miller (Arizona State University)**

Chris Jones (Harvard University Center for the Environment)

*Energy Transitions Reconsidered*

Lee Vinsel (Harvard Kennedy School)

*Envisioning Regulatory Performance Standards: Risks, Tests, and the Regulation of the Automobile in the United States*

Jan-Peter Voss et al. (TU Berlin)

*The Power of Instruments in Governance*

Thomas Pfister (Harvard Kennedy School)

*The “Problem” of European Integration Research*

**6:00 Adjourn (Day 1)**

**DAY 2: FRIDAY, JULY 1**

**8:30 Coffee**

**9:15 Session 4: The Politics of Ownership**

**Chair: David Winickoff (UC Berkeley)**

Walter Valdivia (Arizona State University)

*Equity Considerations in University Technology Transfer*

Shobita Parthasarathy (University of Michigan)

*Understanding the Politics of Expertise through the Case of Stem Cell Patents*

Jon Kahn (Hamline University School of Law)

*Mandating Race: How the PTO is Forcing Race into Biotechnology Patents*

**11 Coffee**

**11:30 Book Display and Discussion**

**12:30 Lunch**

**2 Session 5: Defining the Public Good: Participatory Knowledge Production**

**Chair: David Guston (Arizona State University)**

Ulrike Felt et al. (University of Vienna)

*Extending Problem-definition, Evidence & Expertise? Participatory Research Imagined and Practiced*

Angie Boyce (Cornell University)

*Making Peanut Butter Safe: Defining and Representing the Consumer as an At-Risk Subject*

Nicolas Baya Lafitte (EHESP and IFRIS, Paris)

*Rushed engagement, deep frustration, and relentless protest. Stakeholder participation and environmental impact assessment in the case of Pulp Mills on the River Uruguay*

**3:30 Coffee**

**4 Session 6: Roundtable: SDN@10**

**Chair: Sheila Jasanoff (Harvard Kennedy School)**

**6 Adjourn (Day 2)**

**7 SDN Reception (74 Garfield Street, Cambridge)**

**DAY 3: SATURDAY, JULY 2**

**9 Session 7: Genetics, Health, and Citizenship**

**Chair: Ulrike Felt (University of Vienna)**

Erik Aarden (RWTH Aachen University)

*Politics of Provision: Genetic Technologies and Health Care Access in Western Europe*

Maggie Curnutte (Harvard Kennedy School)

*Consuming Genomes: Scientific and Social Innovation in Direct-to-Consumer Genetic Testing*

Ben Hurlbut (Arizona State University) and Kris Saha (Whitehead Institute, MIT)

*Common Problems: disease, participation and public good in the making of personalized medicine*

**11 Coffee**

**11:30 Futures and Prospects**

**12:30 Adjourn (Day 3)**
